

Nexora Customer Policies

Nexora Systems maintains several policies governing how enterprise customers interact with its AI infrastructure platforms.

Data Ownership Policy

All data processed within Nexora platforms remains fully owned by the client organization. Nexora Systems does not use client data for training or fine tuning large language models unless explicitly authorized by the client.

Data Retention Policy

Customer data processed through Nexora platforms is retained for a default period of 30 days for monitoring and troubleshooting purposes. Organizations may configure shorter or longer retention periods depending on their compliance requirements.

Service Level Agreements

Nexora Systems provides enterprise customers with service level guarantees depending on their subscription tier.

Standard enterprise plans guarantee:

- 99.5 percent uptime
- support response within 12 hours
- platform monitoring dashboards

Premium enterprise plans guarantee:

- 99.9 percent uptime
- support response within 2 hours
- dedicated technical account manager
- priority feature requests

Refund Policy

Refunds may be issued under certain circumstances including:

1. platform outages exceeding 48 consecutive hours
2. incorrect billing exceeding 15 percent of the monthly invoice
3. security incidents impacting customer data

Refund requests must be submitted within 30 days of the incident.
